Agro-Forestry Enterprise Specialist, Natural Resource Management Evaluation, Liberia

Social Impact is a global development management consulting firm. We provide monitoring, evaluation, strategic planning, and capacity building services to advance development effectiveness. We work across all development sectors including democracy and governance, health and education, the environment, and economic growth. Since 1997 we have worked in over 100 countries for clients such as US government agencies, bilateral donors, multilateral development banks, foundations, and nonprofits.

In Liberia, SI implements the Liberia Strategic Analysis (LSA) activity which provides USAID/Liberia with analytical and advisory services in support of strategic planning, project and activity design, performance monitoring and evaluation, and learning and adapting. LSA's services cross-cut all development sectors including democracy and governance, health, education, the environment, and economic growth.

Project Objective:

USAID/Liberia has engaged LSA to conduct an external Midterm Performance Evaluation of a natural resource management activity. This activity develops key rural forest-based enterprises that provide inclusive, sustainable economic opportunities for rural farmers and forest-dependent communities in a way that combats deforestation, forest degradation, biodiversity loss, and reduces the threats to biodiversity.

The purpose of this evaluation is to measure progress of the first two years of implementation and investigate the effectiveness of technical assistance and capacity building approaches to achieve the objectives of the activity. USAID/Liberia will use findings from this evaluation to inform future investment in the forest sector and help inform its continued support of biodiversity directives.

The estimated start date will be February 26, 2018 through May 2018. The estimated LOE will be 39 days.

Position Description:

SI is seeking an Agro-Forestry Enterprise Specialist who will provide technical support related to the evaluation team. The Agro-Forestry Enterprise Specialist will be working alongside three team members: Team Leader, Natural Resource Management Specialist, and Evaluation Specialist.

Responsibilities:

- Perform desk review and identify additional information required for analysis.
- Provide technical expertise on agro-forestry enterprise and support the Team Leader's efforts in evaluation design, methodology, and data collection instruments.
- Schedule and interview key stakeholders and beneficiaries.
- Provide ongoing analysis of qualitative and quantitative data.
- Support the preparation and presentation of the key findings and recommendations to USAID/Liberia.
- Write assigned sections of the draft evaluation report in coordination with team members, taking into consideration feedback from the preliminary findings presentation.
- Work collaboratively with team members throughout design, implementation, analysis, and report writing to complement each other's areas of expertise.

UN Drive, Adjacent Gate 3 US Embassy, Mamba Point, Monrovia Liberia www.socialimpact.com

Qualifications:

- Must have at least five years of professional experience in forestry program management, preferably through USAID.
- Demonstrated experience and knowledge about the Liberian context, particularly on sustainable agro-forest-based livelihood development and community forest governance.
- Some experience in gender analysis and managing or implementing research programs is preferable.
- Ability to conduct interviews and focus group discussions and analyze the resulting data.
- Previous work experience on multi-disciplinary teams and conducting evaluations is preferred.
- A university degree in a discipline related to natural resource management, land policy, forestry, biodiversity, or research.
- Strong English speaking and writing skills are essential.

Interested candidates are encouraged to submit their CVs for the upcoming evaluation. No cover letter is required. To submit your CV, please visit:
