

## **HIGHLIGHTS OF THE PRESIDENT'S DAILY ACTIVITIES**

**Friday, March 13, 2015**

- President Ellen Johnson Sirleaf returned home today after a three-week successful trip to the United States and Europe. At a special thanksgiving and welcoming service held for her safe arrival at the Effort Baptist Church in Paynesville she called on all Liberians to unite, take advantage of opportunities to move the country forward. The Liberian leader indicated that the country's progress in the Ebola fight has presented it with a window of opportunity that can be used to come together as a people, work together to achieve the goals as a country, put aside all the bickering and move the country forward while this window is opened. President Sirleaf warned that this window will not remain open forever as there was a likelihood that some other global threat or circumstance might arise that could divert the attention of the international community. She emphasized that each individual has to take responsibility for the progress of Liberia.
