

Humanitarian Essentials Logistics Module (HELM) Event

Date: 21st – 24th March 2017

Location: Monrovia, Liberia

Logistics Learning Alliance is a leading provider of humanitarian based training programmes. We currently have over **1,000 students**, studying in six continents and working under some of the most dangerous and challenging conditions in many of the world's most disaster hit and war-torn countries.

Following the huge success of our **Humanitarian Essentials Logistics Module (HELM) Events** in 2015 and 2016, we will be visiting Monrovia in March 2017 to run our first event in West Africa for 2017, a four day event, specialising in key aspects of humanitarian logistics – **Supply Chain, Warehousing & Inventory, Transport & Fleet Management**. The HELM programme is designed as a beginner course to help those new or aiming to move into to the humanitarian sector, or who just need to freshen up their skills in delivering humanitarian aid. This event will be studied in English.

The course fee is **\$795.00USD** and this covers the entire duration of the course, including coaching. Discount are applicable for future events. Refreshments and lunch provided. Discounts are eligible for group bookings of between 7-14.

Two payment options: Payment in full (USD795.00) or Payment in two instalments (Two instalments of USD425.00)

Please note that costs associated with travelling and accommodation must be met by the student. Deadline for making payment is Friday 3rd March 2017.

Course content

The workshop will covers areas including:

Supply Chain – including What is Supply Chain Management, The Role of the Humanitarian Supply Chain Manager, How the Supply Chain Works and Improving the Supply Chain.

Warehousing & Inventory – including The Function of the Warehouse, Layout of the Warehouse, Stock Control and Health and Safety in the Warehouse.

Transport & Fleet Management – including The Role of Transport in the Supply Chain, Modes of Transport, Third Parties involved with Transport and Handling Requirements for Goods Movement.

Meet the tutor

Haydn Sandvig joined LLA in April 2013. With over 30 years working experience in Supply Chain and Logistics from working in the field building new facilities in the Middle East, to draw down and exit planning in Germany.

Haydn brings to the business a wide range of skills with people development being his key driving force. He currently has over 100 active students who rely on his logistical expertise. Haydn also played a key part in the creation of the HELM programme.
