

LIBERIA

VACANCY ANNOUNCEMENT

Living Water International (LWI) exists to demonstrate the love of God by helping communities acquire desperately needed clean water, and to experience “water for life in Jesus’ name” – the gospel of Jesus Christ –, which alone satisfies the deepest thirst. Living Water International is providing safe drinking water, Christian Witness, sanitation and health education to communities across Africa, including Liberia.

The below position has become available in Living Water International Liberia.

1. Monitoring and Evaluation (M&E) Specialist

The preferred candidate will be required to:

- Developing the national strategy with annual, quarterly and monthly plans and reports within the National Strategic Framework;
- Ensuring implementation of LWI quality standards and guidelines in the WASH Program Area (WPA);
- Ensuring adherence with tools and protocols for concept notes, proposals, designs and M&E systems;
- Reviewing and or coordinating reviews of concept notes, proposals, design documents and reports before their submissions to the Country Office;
- Maintaining the database of all final concept notes, proposal, design documents and reports for programs and projects submitted;
- In collaboration with the program staff, ensuring quality standards for measurement of project impact and program excellence are followed;
- Maintaining links with other organizations for collaboration, networking, resource sharing, development of materials and learning activities.
- Facilitating programs and projects to undertake community assessments, capacity building programs and follow-up and impact monitoring;
- Implementing M&E training programs for staff that will enhance and develop skills required to perform their jobs in assessment, design, monitoring, reporting and evaluation;
- Developing, producing or sourcing appropriate community training materials or manuals;
- Together with Operations, implementing an innovative, effective system for building capacity in operations and maintenance;
- Defining characteristics of best practices for the country and building WPA capacity to identify and share best practices;
- Documenting and sharing lessons learned and best practices;
- Championing high quality and best practices at national and program area level;

The preferred candidate will have the following skills and experience:

- A degree in one of the following - water engineering; sociology; public health; community development or a related field;
- At least 3 years field experience managing monitoring and evaluation work in an international NGO context;
- Thorough understanding and experience in quantitative and qualitative data collection methods, including sampling, survey design, data analysis, and application of these methods to project monitoring and evaluation standards in water, sanitation and hygiene;
- Understanding and experience Knowledge of behavior change approaches
- Fluency in reading, writing and speaking English
- Proficient in report writing; Self-directed and reliable
- Presentation skills;
- Ability to work with minimal supervision.

This position require the successful candidate to contribute towards promoting and adhering to the Living Water International purpose, basis of faith, core values and operating principles.

Application Process:

Suitably qualified candidates are requested to submit a cover letter (one page only) explaining their suitability and a CV (no more than 5 pages) with details of qualifications and work experience including 3 traceable references - professional, spiritual and general.
