

Assistant/ Associate Professor-Environmental and Occupational Safety & Health Program

Harbel College

HARCO is the fourth and newest public college that is member of the four public higher institutions of learning in Liberia. The College is student-centered, comprehensive, and innovative institution, committed to teaching excellence that advances the life-long educational development of its students while strengthening the economic, social, and cultural life of its diverse community. The College promotes student success by providing high-quality, flexible, accessible educational programs and services; advancing pluralism, inclusion and global awareness; and acting as a catalyst and collaborator for a vibrant region.

We strive to create a vibrant campus community that supports a diverse student body, faculty, and staff. As an essential part of our mission and goals, pluralism is promoted in all aspects of college life. By enriching student life through leadership opportunities, personal learning and cultural experiences, we are committed to building a pluralistic and diverse campus community that fosters creativity, innovation, and student success.

Job Summary:

Environmental and Occupational Safety & Health program is one of HARCO's signature programs for research. The program is seeking an outstanding individual to fill a tenure or tenure-track faculty position at the Assistant or Associate Professor level.

The successful candidate is expected to teach undergraduate courses in Safety, Industrial Hygiene, Occupational Health, Environmental Health, and advise undergraduate students, develop national occupational safety & health records, conduct program assessments, conduct research, seek grant funding, and participate in college service, as well as serve on local/national organizations.

Faculty appointed in the program will become a member of the Mechanical/Renewable Energy Program, Climate Change Studies Program, the Applied Agriculture Programs, and numerous pending research curricula. These programs offer a supportive environment to conduct state-of-the-art Safety, Industrial Hygiene, Occupational Health, Environmental Health mechanical/renewable Energy, and applied agriculture research.

Minimum Requirements:

A PhD degree in Occupational Health and Safety, Industrial Hygiene, Safety, and/or Environmental Health, or a closely related field is required.

- Evidence of ability to conduct independent and collaborative research and to generate funding for research and institutional development.

- Strong record of published peer-reviewed articles.
- Evidence of effective undergraduate teaching.
- Ability to work effectively with a diverse ethnic group of colleagues and students.
