

Vacancy – Data Collectors

Position:	Data Collectors
Duration:	Indefinite
Supervisor:	Base Manager
Duty Station:	Monrovia
Deadline:	May 4, 2018 to June 05, 2018

Around the world, more than a billion people lack access to healthcare because they live too far from a health facility. Today, we are bringing health care to the door. It is an on-demand, in home, care delivery platform designed to address the healthcare needs of the increasing Population that struggles with access to health care service. We are more committed to bridging the gap between Clinics and the patients by deploying health workers to bring primary health Services to the doorsteps of people home.

Summary

The Data Collector is the first contact person of Treatme Home Health to the general public. Therefore, it is extremely important that the Data Collector present a professional image to the public. The primary responsibility of the Data Collector is to locate, identify and accurately inform management of data information, and accurately record all relevant data on a data collection form.
