In an effort to create an enabling economic environment that promotes sustainable growth, the Ministry of Commerce and Industry, with funding from the World Bank, has proposed to undertake further reforms that will transform the landscape of its real economy and create more and better jobs for its people through the implementation of the Liberia Investment, Finance and Trade Project (LIFT-P). Given the adverse economic impact of COVID-19, this project will also allow formal Small, and Medium Enterprises (SMEs), most of which have limited firm capabilities and access to financial markets, to competitively participate in global value chains through exports or import substitution.

The project is designed to help address key constraints that the private sector faces at both economy-wide and firm level, when starting or doing business in Liberia. Through the reforms to be supported under the LIFT-P, Liberia hopes to send a clear message that it is open for business and that it should be the destination of choice for any potential investor.

The Ministry of Commerce and Industry, through the Ministry of Finance and Development Planning of the Republic of Liberia has applied for financing from the World Bank in the tone of **US\$40 million** for the implementation of the **Liberia Investment, Finance and Trade (LIFT-P) Project**, and intends to apply part of the proceeds to recruit a **Project Coordinator** (individual consultant) to lead the PIU's team to be established at the Ministry of Commerce and Industry.

The attention of interested Consultants is drawn to paragraph 3.14 to 3.17 of the World Bank's *Procurement Regulations for Investment Project Financing, for Procurement of Goods, Works, Non-*

*Consulting and Consulting Services*, July 1, 2016, revised in November 2020 setting forth the World Bank's policy on conflict of interest.
