

An LBS Accredited Training Center

International Professional Diplomas Training Courses

The Institute for Professional and Executive Development (IPED)

About The Institute for Professional and Executive Development (IPED)

IPED is an international examining organization based in England. She offers educational services to students and organizations both in and outside the United Kingdom. Her vision is to promote and deliver quality professional training through the integration of stakeholders and through continuous improvement.

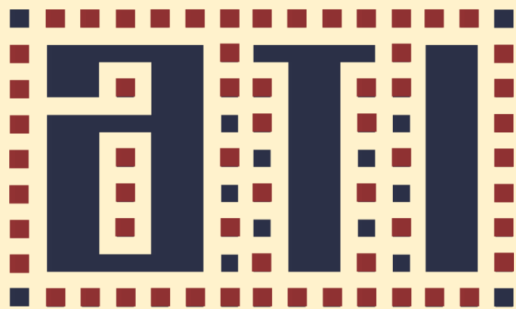

Each year she equips many people worldwide with the skills and recognition they require for their career advancement and professional development in various fields such as Banking and Finance, Oil and Gas Management, Business, Project Management, Marketing, Health and Safety Management and HR.

International Single Subject Diplomas (SSD)

These diplomas are designed for those students who wish to study individual subjects that are most relevant to their education and career needs. Depending on their circumstances, certain students prefer to take one (or two) module(s) at a time. IPED has made this facility available to those students who do not wish to take complete programs or Group Diplomas. A student will be awarded a Single Subject Diploma upon successful completion of each module.

Access Training Institute (ATI) Liberia has been selected as an **Accredited Training & Examinations Center in Liberia** through her International Partner, Logos Business School Ghana, to offer IPED Courses.

ATI therefore informs all interested individuals and corporate organizations that IPED first **Single Subject Diploma Courses** start **July 14, 2018.**
